Prajwal Ferrao

Mangaluru, Karnataka, India | +91 99008 10588 | prajwalprajwalferrao@gmail.com
LinkedIn | Portfolio | GitHub

Professional Summary

Final-year Artificial Intelligence and Machine Learning engineering student with hands-on experience building full-stack applications, computer vision systems, and machine learning solutions. Skilled in Python, React, Next.js, Flask, and SQL, with projects spanning face recognition, pose-based fall detection, real-time web apps, and house-price prediction. Co-author of a survey paper on intelligent vehicle emission monitoring. Seeking software engineering, full-stack, or AI/ML opportunities.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, C, C++, HTML, CSS
AI and Data: Pandas, NumPy, Scikit-learn, XGBoost, CatBoost, OpenCV, MediaPipe, Streamlit
Web and Backend: React, Angular, Next.js, Node.js, Express, Flask, FastAPI, REST APIs, WebSockets, Tailwind CSS
Databases and Tools: PostgreSQL, Supabase, MongoDB, MySQL, SQLite, Firebase, Git, GitHub, Docker, Postman, Vercel

Experience

Data Science Intern | L-Point, a unit of HireEdge Technologies Private Limited Jun 2026 – Aug 2026
Mangaluru, Karnataka

- Contributed to machine learning and data science projects, applying programming and data-driven problem-solving skills.
- Worked independently and with a team on assigned project activities.

Selected Projects

FaceTrack AI – Face Recognition Attendance System | Python, OpenCV, Flask

- Built a biometric attendance application with face detection and recognition, member management, attendance recording, and CSV export.
- Developed a Flask web interface for registration and live recognition, with attendance records available for review and export.

AegisFall AI – Vision-Based Fall Detection | MediaPipe, WebSockets

- Developed a fall-detection application that analyzes human pose keypoints and triggers emergency alerts.
- Connected the monitoring interface to alert events through WebSockets for live status updates.

IMC League S4 – Sports League Management | Next.js, Supabase

- Built a sports league platform for team creation, match scheduling, live scoring, and tournament progression.
- Designed administration flows for managing teams, fixtures, and match results.

Real Estate Valuation ML | Scikit-learn, XGBoost, CatBoost, Pandas, Streamlit

- Developed a house-price prediction dashboard using regression models and an interactive Streamlit interface.
- Compared multiple regression approaches and presented predictions through user-provided property inputs.

Education

Nitte Mahalinga Adyantaya Memorial Institute of Technology (NMAMIT) CGPA: 6.16
Bachelor of Engineering, Artificial Intelligence and Machine Learning 2023 – Present
Govindasa PU College, Suratkal 80.8%
Karnataka State Board, PUC 2021 – 2023
Chaithanya Public School, Suratkal 74.72%
Karnataka State Board, Class 10 2021

Certifications and Paper Participation

Technical Paper Writing Competition (Participant) | IEEE Student Branch NMAMIT, IEEE Day 2026 Oct 2026
Co-authored paper: *Intelligent Vehicle Emission Monitoring: A Survey of OBD-II, IoT, Machine Learning, Edge Intelligence, and Cloud-Connected Systems*
Certifications: Machine Learning with Python – Level 1; Cloud Essentials; AINNOVATION 2025: Microsoft Azure Learning

Leadership and Activities

Activities: Incridea '26 Crew Committee; Youth Red Cross member; Sports Club participant
Languages: English, Hindi, Kannada, Tulu, Konkani
